

Reserv^{air} | Energy Ltd

Reservoir | Energy Ltd

ABOUT

Reservoir Energy Ltd is an indigenous company providing technical and commercial services to companies in the energy sector, with major focus on Oil and Gas Industry, Reservoir energy cuts across the exploration and production aspects of the Industry with the focus of providing competent technical services.

MISSION

To provide our client with effective and efficient services through professionalism.

VISION

- To be among the leading company in the energy sector, providing cost effective services.
- To create a sustainable environment for capacity development and job creation.
- To become a leader in new industry technology innovation

CORE VALUES

PROFESSIONALISM

INNOVATION

PASSION

ENVIRONMENT

SUSTAINABILITY

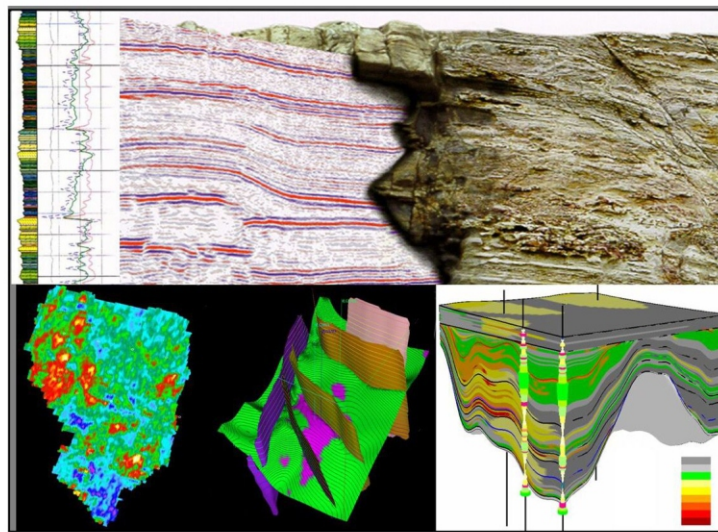

OUR SERVICES

FIELD DEVELOPMENT STUDIES

- 2D/3D Reservoir Characterization
- Static Modelling and Reservoir Simulation
- AVO Analysis
- Petrophysical Analysis
- PVT Modelling and Fluid Characterization
- Training and Capacity Development on Field Development Studies

EXPLORATION SERVICES

- Petrophysical Analysis and Regional Studies.
- 2D/3D Seismic Interpretation
- Sequence stratigraphic studies
- Fault Seal Analysis
- Rock Physics and Formation Evaluation
- Prospect Generation and Maturation
- Training and Capacity Development on Exploration Services.

PRODUCTION OPTIMIZATIONS

- Well Performance Monitoring
- Production System Analysis
- Reservoir and Field Productivity
- Drilling and Completions Design
- Advanced Production Technology
- Training and Capacity Development on Production Optimizations.

RESERVE ESTIMATION

- Asset Valuation
- Volumetric Analysis
- Competent Persons Report
- Decline Curve Analysis
- Project Economics
- Training and Capacity Development on Reserve Estimation.

OUR SERVICES

DRILLING SERVICES

- Drilling Rig Mobilization
- Drilling Jars and Impact Tools
- Measurement while drilling (MWD) Services.
- Logging while drilling (LWD) Services.
- Directional Drilling
- Training and capacity Development on Drilling Services

ELECTRIC WIRELINE/SLICKLINE SERVICES

- Open Hole and Cased Hole wireline Services
- Perforating Services
- Pipe Cutter-Mechanical, Chemical, Radial.
- Pipe Recovery
- Coring Services
- Training and capacity Development on Electric Wireline and Slickline Services

WELL TESTING SERVICES

- Wellhead Maintenance
- Downhole and Surface Sampling
- Well Testing and Preparation of Well Test Report
- Tubing Conveyed Perforating
- Well testing with DST/TCP Assembly
- Training and Capacity Development on Well Testing Services.

ENGINEERING AND PROJECT MANAGEMENT SERVICES

- Fabrication, Installation & Commissioning.
- Engineering and Procurement.
- Facilities Inspection & Upgrade.
- Heavy Infrastructures Construction.
- Asset Integrity & Techno Economic Studies.
- Training and Capacity on Engineering and Project Management Services
